- 25 mg of zinc to support a healthy prostate gland, plus saw palmetto and lycopene for extra prostate protection.
- Sufficient amounts of plant enzymes (amylase, protease, lipase and cellulase) to support healthy digestion.

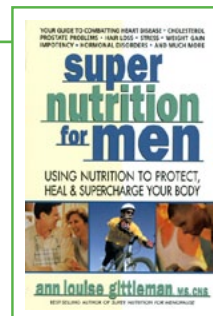

note from

Dr. Ann Louise™

"An iron-free daily multiple is essential for males of all ages, but especially for men over 40. The Male Multiple also contains the highest amounts of B vitamins (B6, B12, and folic acid), so helpful in keeping homocysteine levels low. Homocysteine has recently been recognized as a major risk factor in heart disease—still the #1 killer for men in the USA."
